All Amica home and kitchen appliances arrive with a 2 year parts and labour guarantee for your protection and peace of mind. If your appliance has a fault and you need an engineer to visit, be sure that you've registered your guarantee before contacting the Amica service centre on **01949 862012**. Please ensure that you have your Amica model number, serial number and date and place of purchase to hand, as this is required when the service call is placed with our call centre.
